

Women's Civic Initiative ANTICO

INTERNATIONAL CONFERENCE

"Peace and Security – Feminist Alternative" Antico – 10 Years of Promotion of Culture of Peace and Non-violence Through Public Engagement of Women

Skopje, 05 – 06 October 2009

Antico, a Women's Civic Initiative is celebrating 10th anniversary this year. In September 1999, during the time of the Kosovo war and refuge crises, women activists and leaders in the women movement in Macedonia from different ethnic backgrounds gathered at a seminar on *Transformation of Conflicts and Peace Building* and founded Antico as a feminist response to the needs of the women's movement for a different way of organizing and strengthening of the women's identity and power through overcoming ethnic borders. Our initiatives have ever since been directed towards:

- Establishing of just peace and culture of non violence through creation of safe space for debating and coexistence of the differences and equal division of power regardless of the gender and ethnic belongings.
- Promotion the multiethnic women engagement and equal participation of women and men in public and political life.
- Eradicating the patriarchal ideology in the Macedonian society and globally.

Because we believe that these are among the most important preconditions for achieving sustainable peace in local and global frames.

In order to celebrate the 10 years anniversary we organize an International Conference on Security and Peace: A Feminist Alternative; "Antico: 10 years Promoting Culture of Peace and Non violence Through Public Engagement of Women."

The goals of the conference are:

- To provide space for exchange of views, experience and knowledge among women rights activists, feminists and peace activists living in different contexts: in "peace", recovered from war and under military conflict and occupation.
- To open channels for communication and strengthen relations between feminists and activists, contributing to women's empowerment and solidarity.
- To debate constructive alternatives to the policy of militarization and war which generate violence and insecurity. To challenge the traditional concepts of peace and war, power and security by linking feminist theories and experiences of women in peace and war.

Much of what Antico was able to achieve was thanks to women's organizations, feminists and peace activists and foundations that acknowledged our work and mission and have been providing us with institutional support but most importantly solidarity support and exchange which further motivated us to be true to our mission.
